

## **Z400 Series**

Designed for the residential user seeking high levels of comfort and convenience, and the professional user demanding superior durability and performance.

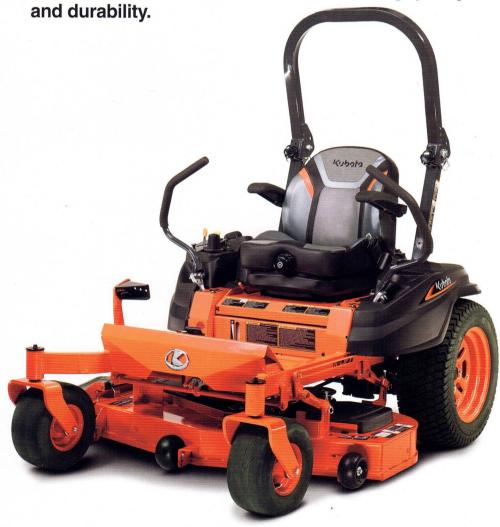

# Comfort and Convenience, durability and performance. It's everything you want in a zero-turn mower.

Residential users require high levels of comfort and convenience. Professional users demand superior durability and performance. Both want easy operation and top level performance to handle even the most challenging mowing tasks. The Z400 Series of zero-turn mowers delivers all that and more, including powerful engines matched with rugged transmissions, smooth operation levers, and, of course, Kubota's reputation for outstanding quality

## COMFORT & CONVENIENCE

Designed for performance, the Z400 Series also offers a wealth of comfort and convenience features to keep you feeling fresh and working longer.

#### **NEW HIGH BACK 3" SUSPENSION SEAT**

Soft and roomy, the high back 3" suspension seat will keep you comfortable even on those extra-long mowing jobs. The seat slides a full 4" travel, letting you find just the right position for maximum personal comfort.

#### **WIDE FOOT PAN**

There's plenty of legroom up front, thanks to a wide foot pan. It also makes entry and exit a snap.

#### **CUP HOLDER**

Integrated cup holder ensures that your drink is always handy, so you can stay on the job longer between breaks.

### SMOOTH OPERATION LEVERS

The operation load of the dual operation levers can be adjusted to each operator's needs to provide smooth, precise control and less fatigue at the end of the day. The damper force can be easily adjusted to ensure optimum comfort for every operator.

#### **12V POWER OUTLET**

Charge your phone or other accessory while mowing the lawn. The Z400 also has an integrated smart phone holder.

#### **LARGE FUEL TANK**

The large, 25.7 L fuel tank keeps the Z400 Series mowing for more than 6 hours between refueling stops. (depending on conditions)

### ERGONOMIC CONTROL LAYOUT

All controls are ergonomically arranged for quick identification and simple operation, with most controls on the right side for faster, easier access.

## 5" DEEP WELDED MOWER DECK

This steel welded mower deck provides outstanding, professionallevel cutting performance. A reinforced spindle mount area improves durability.

## PERFORMANCE & EASY OPERATION

24" Rear Tires
Big tires mean a softer rice

The Z400 Series boasts the kind of performance found only in commercialgrade mowers, as well as the easy operation that residential and professional users alike can appreciate.

#### **6.5" WIDE FRONT TIRE**

Add some stability when driving over rough terrain. They also reduce the overall footprint thus reducing turf damage and improved cut quality.

#### **PARKING BRAKE**

A foot pedal locks the brake so the unit can't move, ensuring safe and secure parking.

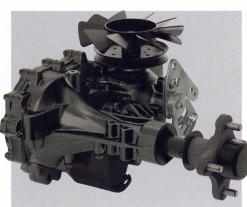

#### **POWERFUL ENGINES**

The Z400 Series comes equipped with powerful KAWASAKI engines that provide the torque you need to power through tall grass and rugged environments.

#### **RUGGED TRANSMISSION**

Power from the engine is delivered to the wheels through rugged, Hydro-Gear® Commercial ZT3600® transmission.

16.0 km/h travel speed

#### **PRECISION ADJUSTMENT**

A simple twist of a dial lets you adjust the cutting height in precise 1/4" increments.

#### **LOW PROFILE TYRE**

The Z400 Series' new wide low-profile tyres not only look good, they provide better traction for all types of mowing tasks. They also have a larger footprint that reduces ground compaction as well as turf damage during turns.

#### **FOLDABLE ROPS**

The ROPS on the Z400 Series mowers meets ISO 21299 specifications to ensure safe and efficient operation. The ROPS easily folds down to allow the mower to pass under low obstructions, as well as permits easier storage in a garage or shed.

#### **Mechanical One Push Deck Lift Pedal**

The K-Lift pedal lets you quickly and easily adjust the cutting height without leaving your seat. Simply press the pedal and turn the adjustment dial!

Push and release the pedal to raise the deck

2 Use the dial to adjust the cutting height

Push and release the pedal again to lower the deck

These Kawasaki engines have been tested in accordance with SAE J1995, verified by TÜV Rheinland Group, and certified by SAE International. The gross power ratings of these engines were determined by using measurements according to SAE J1995 which were witnessed by SAE-approved witnesses from TÜV Rheinland Group. Torque ratings of these engines were not certified by SAE. Actual power and torque output will vary depending on numerous factors, including, but not limited to, the operating speed of the engine in application, environmental conditions, maintenance, and other variables."

"Power (hp) specifications for individual gasoline engine models are rated pursuant to Society of Automotive Engineers (SAE) J1940 or J2723 based on gross output testing performed in accordance with SAE J1995 without the air cleaner and muffler. Gross engine hy will be higher than actual engine power which is affected by accessories, application, engine speed, ambient operating conditions and other factors. The gross engine horsepower information is for comparison purposes only.

#### **Attachment & Option Kit**

#### Grass Catcher

The optional 7 bushels (250 liters) grass catcher can be attached and detached without ever requiring the use of any tools.

- Mulching Kit
- LED Work Lights
- · OCDC
- Maintenance Lift Kit
